

My Grandmothers Life.

My Grandmother is 97 and I ask her about this project. When my Grandmother was 14 it was time to leave school. At the age of 15 she had to go to Kinsale because her friend was not well and she had a business in England so my Grandmother helped her with her business. The world war 2 came in 1993 and she did a catering job in England. After world war 2 she came home. In 1950 she went back to England and met Grandad. They married in 1961 and had my mother in 1962. They lived in England till 1986. They came back to Ireland to retire.

That was my project ~~hope~~.

THANK\$ YOU.
