## Éadaí

My Nana Kitty used to wear big 60's style skirts with a stylish blouse that had to have a high neck collar and stiletto shoes in her younger years. As she got older she swapped the stilettos for more comfortable flats but she loved stylish shoes. It wasn't until she was in her 70's that she started wearing pants. Nana Kitty always had her hair set and loved to have her nails painted.

## Pheataí

Nana Kitty always kept birds. She had budgies and canaries. She would put their cages out on sunny days as she loved to hear them sing in the morning. She also had dogs . She had different breeds over the years one of her favourite was a yorkshire terrior . She also kept a few jhonny long leg spiders to frighten my mom😂😂😂😂.

# A shaol

Nana kitty was a hard working woman. She had 10 children, 35 grandchildren and 15 great grandchildren. She was brilliant at knitting she would knit cardigans for all the grandchildren when they were babies. She tried to teach me how to knit but I had no patience for it so she knitted me a scarf instead. Nana kitty loved Country music and Country Western movies. She also loved to collect things like porcelain dolls, bird ornaments and clocks. When she was younger you would always find Nana out in her garden planting and watering flowers. She had such a beautiful garden and could grow anything.
